	*Transitions 1.74	-13.00 to +9.00	

Progressive lens power ranges represent the max total power available including the cylinder power in minus cylinder form (-4.00 max cylinder power)

Rx Prism - The maximum amount of prism or combination of prism is 5.00 diopters in any direction. Rx prism is not available on KODAK Unique, MonitorView, Precise/Short PB, or DirecTek/Short Lenses.

Diameter - The minimum uncut diameter offered is 60mm; the maximum is dependent on blank availability. Lenses are cribbed to the nearest value at least 1mm greater than the final shape in 2.5mm steps.

Index	Material	Add Range	Power Range
SINGLE VISION SPHERICAL			
1.50	Standard Resin		-8.00 to +6.00
	Polarized 1.50		-6.00 to +6.00
