

**Easy to Dispense,  
Easy to Adapt to.**

## **KODAK** Precise PB Lens

All the features and benefits of the award-winning KODAK Precise® Lens in a full-backside design.

The viewing areas work together to provide the wearer:

- A more natural wearing experience with viewing zones perfectly placed to promote natural head and eye movement at distance and near
- Comfortable, clear vision where they need it most
- Smooth transition from one zone to the next reducing the blurring or “swim effect” for easy adaptation

vision  
first 

KODAK Precise PB Lens is created using Vision First Design™, proprietary technology that controls the surface power at virtually every point on the lens. The result is a smooth power increase across the entire lens, top to bottom.

**KODAK** Lens

With Vision First Design Technology, KODAK Precise PB and Precise Short PB Progressives provide:

- A broad field of view in a clear distance area.
- Smooth gradation of power across the surface of the lens to ease patient adaptation.
- Gentle binocular balance for quick, clear object recognition.
- Visual quality often compared to a single vision lens.
