

Transitions
Signature[®] GEN8

Transitions
XTRActive[®]

Transitions
Vantage[®]

Breakthrough technology for the best overall photochromic lenses.*

Transitions[®] lenses deliver all the benefits that patients want:

- protection
- outdoor darkness
- full indoor clarity
- responsiveness
- long-lasting performance

The best choice for extra protection - even in the car.

Uniquely designed with broad spectrum dyes that react to UV and low visible light, enabling it to be extra dark outdoors and activate behind the windshield. These lenses also protect against harsh artificial light and digital devices indoors.

The best choice for glare reduction outdoors.

The world's only intelligent lens that automatically polarizes as it darkens outdoors. The variable polarization adjusts to match the level of glare outdoors to provide noticeably crisper, sharper vision.

LOVED BY WEARERS

9 out of 10 Transitions[®] lens wearers are satisfied and will repurchase.¹

*Based on achieving the highest weighted composite score among main everyday photochromic lenses across measurements of key photochromic performance attributes weighted by their relative importance to consumers.

¹ US Consumer Brand Tracking: Q3 2017; N=210 Transitions Users (MSW-ARS)

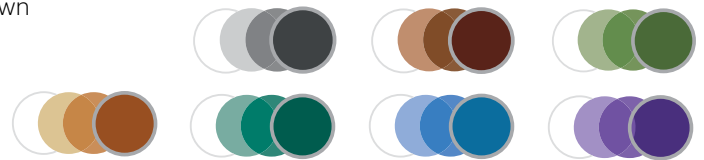

Two consumer-known brands come together to offer eyeglass wearers high-performance and comfortable vision every day.
